## **PROJECT DESCRIPTION**

Florida-based El-Ad National Properties, an Elad Group company, introduces ALINA Residences Boca Raton. The intimate, luxury community is conveniently located in the heart of Downtown Boca Raton on the site previously known as Mizner on the Green. The highly anticipated development is designed by acclaimed architectural firm Garcia Stromberg/GS4 Studios. The residences will offer a variety of amenities and provide walkability along Mizner Boulevard with access to the Mizner Park shops, restaurants, art galleries and events. Ideally positioned adjacent to the Boca Raton Resort and Club's championship golf course and just minutes from the beach, ALINA will stretch over eight acres and offer its residents panoramic city and golf course views and abundant green space – unlike any other property in the area. "After working collaboratively with the City of Boca Raton and its community members to create a plan for this exceptional development, we are eager to bring this project to market," said Noam Ziv, Executive Director of Development at El-Ad National Properties. "We look forward to delivering a sophisticated lifestyle conveniently located near everything the desirable Boca Raton destination has to offer."
